

Otis 400

MOTORISED ELEVATOR SYSTEM
FOR SMOOTH DELIVERY OF
STILL & CARBONATED DRINKS

Introducing the Otis 400

Putting the *fizz* back into your refreshment service

The OTIS400 is more than just another illuminated “shop window” for chilled bottles and cans. Once your selection has been made, an elevator delivery system will actually serve you with ice-cold drinks before your very eyes. And with 40 available selections of bottles and cans of just about any shape or size, your customers will literally be spoiled for choice in terms of water, still beverages, fizzy drinks, energy drinks and fruit juices.

Unlike most bottle and can vendors, the OTIS 400’s relatively modest dimensions and modern unobtrusive styling are equally suited to office, factory and public site locations. The machine is designed to be the perfect partner for a hot beverage or snack machine and allows you to offer a fully integrated one-stop refreshment centre.

When you need chilled refreshment you need it fast! With a speedy vend time of just under 12 seconds, OTIS won’t let you down and just as importantly, won’t slow down your sales on busy sites!

Accept no substitute – choose OTIS!

- Fast, sub-12 second product vend time - perfect for busy site
- In-built energy management system - reduces power consumption of refrigeration system and lighting during two programmable periods each day
- Smooth “at your service” upright picking and delivery system - perfect for glass bottles and carbonated drinks
- Suitable for vending almost any shape and type of bottle or can without the need for spacers and shims
- “At your service” elevator delivery system for superior customer entertainment and advertising opportunities
- Direct drive product delivery system - no solenoids, wiring or switches for added reliability
- Pull-out shelves for FIFO loading - chilled refreshment with every vend
- In-built Securevend - product dispensed or your money back
- Innovative trouble-shooting facility via display - for easy fault diagnosis
