

GENEVA RANGE INSTANT/SFB/DFB/BEAN TO CUP

Geneva

Hot Beverage Systems

By Wittern

WITTERN LIMITED

Why Select Wittern?

Wittern is established as one of the world's leading manufacturers of vending machines, systems and technologies.

Recognised over our 75 year history for driving innovation and setting the industry standard for design and production quality, our latest technologies offer access to a new level of vending opportunity with proven systems that provide optimum performance, durability and styling.

Backed by service support that is unrivalled in the industry, your commitment to invest in Wittern will only be equalled by our total commitment to your operation.

The Geneva Range

Today's customers expect a similar drinks range with the same product quality and service from a hot beverage vendor as they do from a contemporary coffee shop.

Geneva beverage merchandisers deliver a complete range of high quality, continental-style coffees and tea at the exact strength, temperature and appearance users expect.

Wittern guarantees:

Outstanding quality and reliability. Precise control of product delivery and temperature ensuring a perfect beverage every vend.

Geneva vend reliability.

Wittern's iVend™ technology ensures consistent vend and refund performance. The system guarantees that the selected item is delivered to the customer or their money is returned.

Energy Saving

Wittern's Power Management System powers down the Geneva during low-use periods

Geneva

Premium quality refreshment system

Enhanced Customer Interface

Large, backlit LCD screen and positive feel keypad.

Jug facility and cup sensing

Geneva can directly fill large jugs and automatically senses customers own cups

Four models in the Geneva range:

- Geneva Instant: High quality instant tea and coffee
- Geneva SFB: Instant tea or coffee with either fresh leaf tea or fresh ground coffee
- Geneva DFB: Fresh leaf tea, fresh ground coffee and instant coffee
- Geneva Bean to Cup: Bean to cup coffee, fresh leaf tea and instant coffee

Benefits

- Blue and monochrome standard finishes.
- Internal stainless steel panelling – easy to clean.
- One-piece mixing and brewing system simplifies operation.
- Moving dispensing head eliminates drink cross-contamination.
- 600 plastic and paper cup capacity.
- Direct drop mechanism greatly reduces the chance of cup jam.
